WIS 441 Tri-County Project lane closures for March 30 – April 3

Traffic restrictions on WIS 441 and US 10

(Green Bay) The Wisconsin Department of Transportation (WisDOT) Northeast Region office in Green Bay is announcing WIS 441 Project lane restrictions for March 30 through April 3 in Winnebago, Outagamie and Calumet counties. Drivers should be aware of reduced speed limits and remember to use caution while traveling through any work zone. This does not include closures by local authorities for accidents or unusual incidents (such as weather).

WIS 441/US 10

- The northbound US 41 to eastbound US 10/northbound WIS 441 ramp will be closed on Thursday evening, April 2, from 11 p.m. to 5 a.m.
 - To access eastbound US 10/northbound WIS 441, exit at County II/Winchester Road, head west to County CB and then north to eastbound US 10.

Utility work

Traffic impacts for AT&T's utility construction include:

- A number of through lanes will be restricted and closed during various stages.
- Northbound right-turns from Appleton Road to Midway Road eastbound will be prohibited during various stages.
- Eastbound Midway Road will be closed to motorists approaching the Appleton Road/Midway Road intersection during various stages.
- Appleton Road north of the Appleton Road/Midway Intersection will be restricted to one lane during various stages.
- Westbound and eastbound Midway Road will be restricted to one lane approaching the Appleton Road/Midway Intersection during various stages.

Utility crews will have messaging boards alerting motorists to closures or turning restrictions.

US 41 Bridge Maintenance Project: Note: This project is separate from WIS 441 Tri-County Project, but will be included on the WIS 441 road closure list. While there is some overlap with the WIS 441 Tri-County Project, all work is being coordinated between the two projects.

This construction to improve nearly nine miles of US 41 from Breezewood Lane/Bell Street in Winnebago County to WIS 15 in Outagamie County is scheduled to begin Wednesday, April 1 and be completed by the beginning of August.

This project is needed for repairs to the roadway and 19 bridges that will maintain safety and mobility along this vital transportation corridor. As part of this work, the pavement approaches to many of the bridge decks will be replaced.

There will be traffic impacts associated with this project, including:

- Both directions of US 41 will have areas reduced from three to two lanes for a significant portion of the project.
- Some multi-lane closures will be required during night time and off-peak hours.

Later in the project, the following ramps will be closed:

US 41 interchange ramp impacts include:

- US 41 northbound entrance from (Winnebago) County II will be closed for approximately 2 months.

There will be approximately 2 week closures for:

- US 41 southbound exit to Main Street in Neenah
- US 41 northbound exit to WIS 125 (College Avenue) in Grand Chute
- US 41 southbound entrance from WIS 125 (College Avenue) in Grand Chute

All other interchange ramps may be closed during night time hours for a maximum of 2 nights.

All lane restrictions and work operations are weather dependent and subject to change.
